

Business owner.

Manuela left Italy almost 20 years ago to first move to Costa Rica, where she lived for several years, then moving to Toronto and afterwards here, to Bear Mountain, 2 years ago.

She loves nature, art and food. She enjoys going for hikes and walks on the beach with her husband and their dogs. She also likes to indulge her friends by cooking delicious meals for them, and, when she has time, she finds contentment in creating art.

She immediately fell in love with Bear Mountain, the nature, people... everyone made her feel at home at once. She joined the BMCA with the desire to give back to the community and create more opportunities to bring everybody together.
